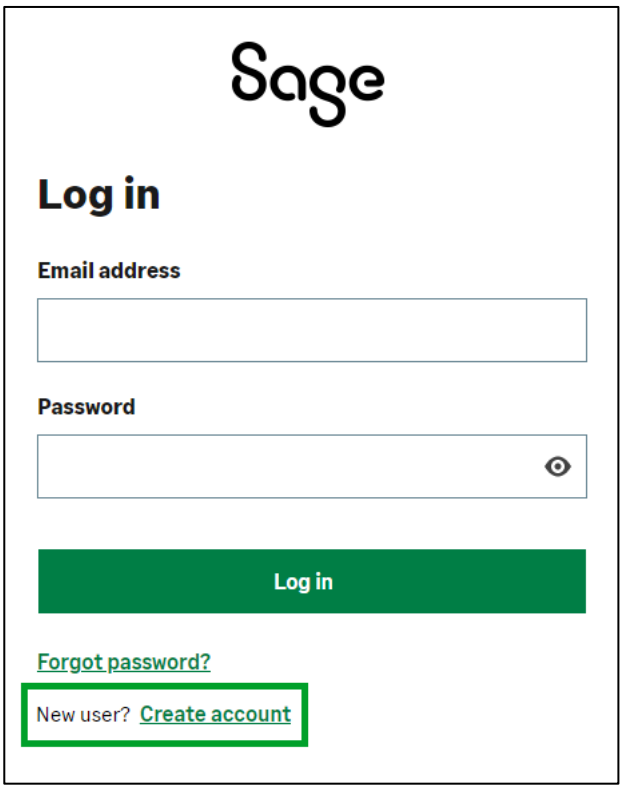
How to create a Sage University profile

- Access the internet and enter the following address https://sageu.com/logon.

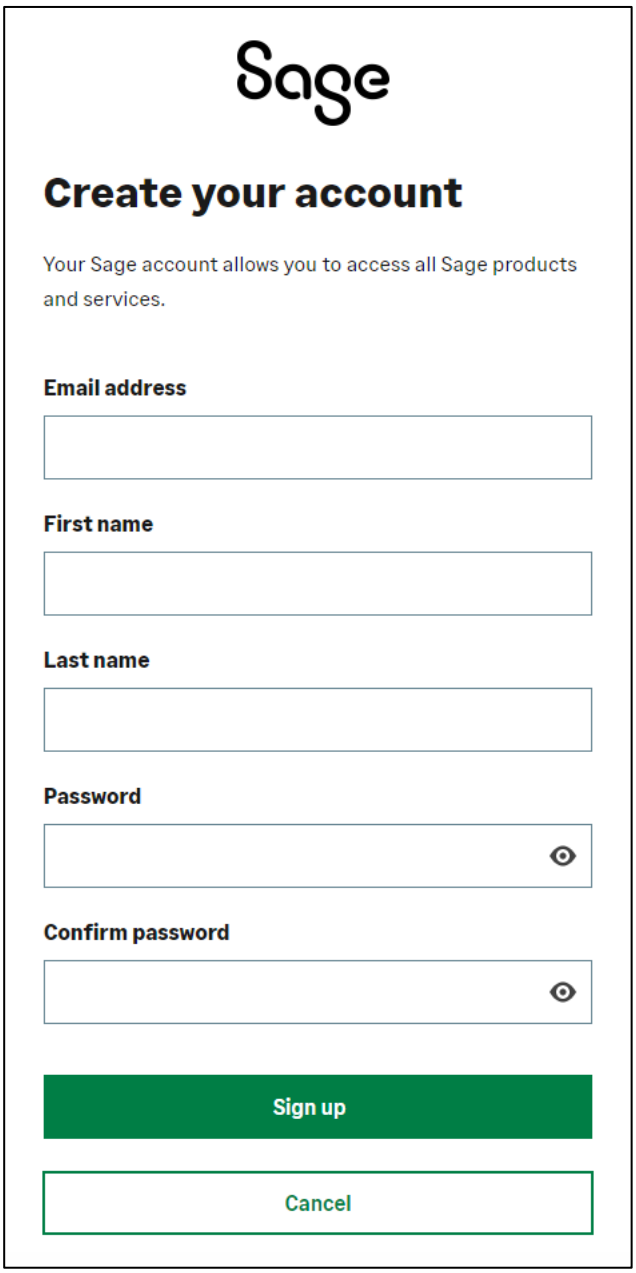
- On the login page, click on **Create account**.



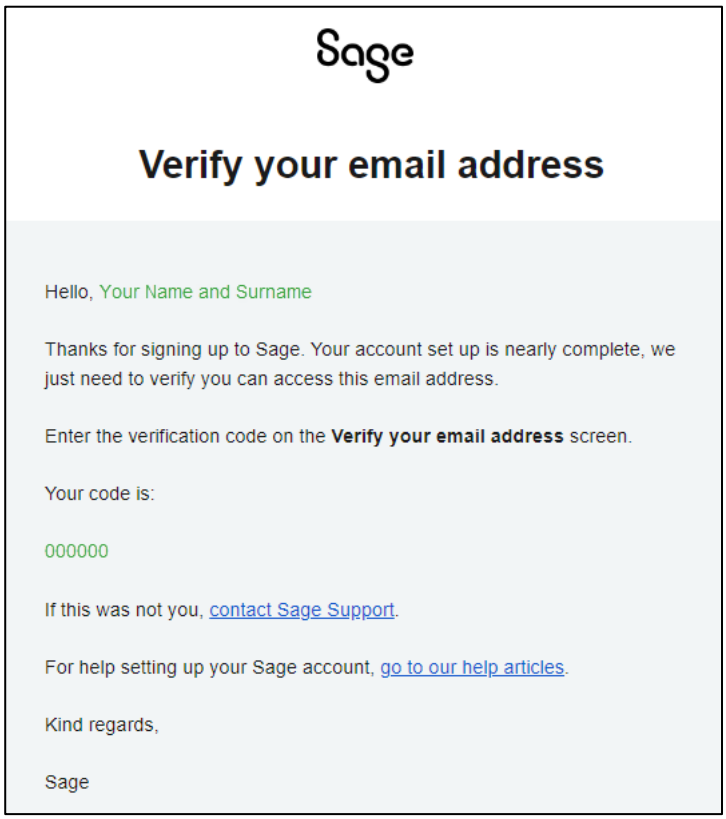
Important information

You can use any email address to sign up. You no longer have to use your university/institution email address.

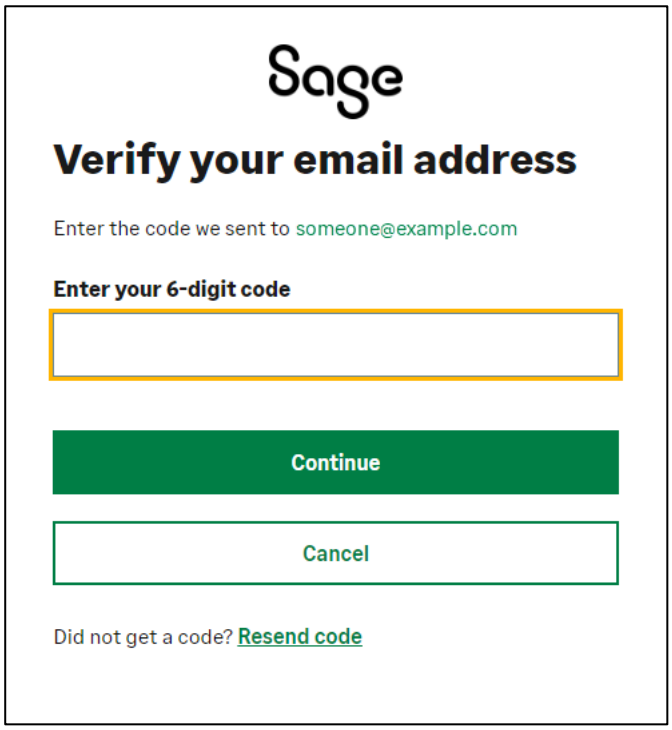
- Complete the form and click on **Sign up**.



- A verification code will be emailed to the email address you signed up with. Check your email **Inbox** or your **Junk** mailbox.



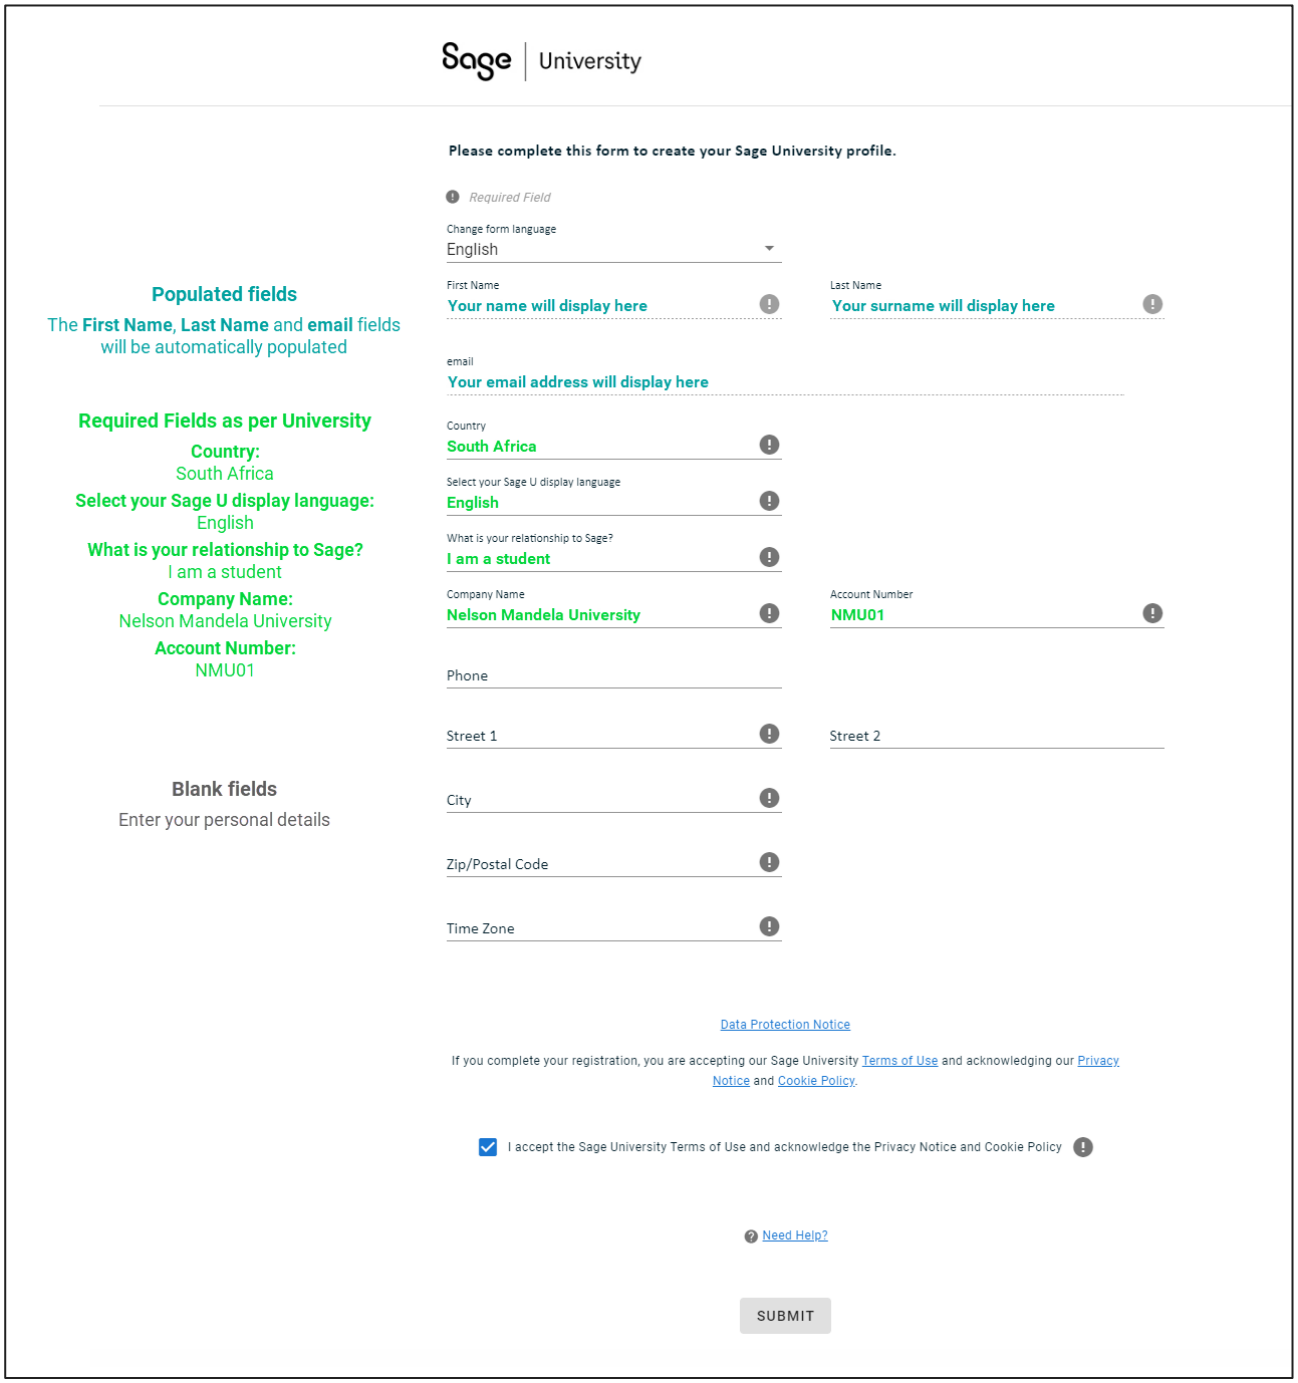
- Enter the verification code received to verify your email address and click on **Continue**.



- Complete the form to create your Sage University profile, accept the **Terms of Use** and click on **Submit** at the bottom of the form.

Important information

It is very important that you complete the form below in the exact same manner, please pay particular attention to the required fields highlighted in GREEN. Should you not complete the form correctly, the system will not give you access to your exam or generate your results.



- You Sage University landing page will be displayed.
- Click on **Select your Institution** to see the training available to you.
